Modern, Custom Website Development

Location **Minnesota** https://www.genclassifieds.com/x-625886-z

As I was scrolling through craigslist looking at all of the posts for website design, I noticed that the majority of portfolios seemed quite outdated.

I would love to create a modern, high quality, creative, custom website for you or your company!

I'm a perfectionist when it comes to creative content that I produce, and nothing brings me more satisfaction than a completed website and a happy client!

Send me an e-mail telling me what you want in your new website and I'd love to create it for you!

Examples of my work: www.grovecommunitychurch.com www.kanpefem.com

All websites I create have built in SEO and are mobile friendly. E-commerce and business e-mail addresses are also available.
