

# Landscaping, Professional Gardening, amp Lawn

Location **Minnesota**  
<https://www.genclassifieds.com/x-625889-z>

Buck Landscaping has been doing landscaping and professional gardening in the Blaine/Ham Lake area for over 5 years! This year we are also doing lawn-care.

Our advantage over other landscaping & lawn-care companies in the north metro is affordability and flexibility. Our clients often hire us for repeat business because we strive to offer our creative services in a personal, yet professional, manner.

We desire to see each client acquire the visual eloquence they desire at an affordable price. Because we value relationship with our customers, each project is unique to each client. Even after an estimate, or beginning stages of project development, we've changed designs, implemented additional features, and worked with our clients to ensure each project is perfect!

Being a smaller company, we have the ability to be relational and flexible. Our work is about ensuring the quality of each project, not the quantity of jobs that we can complete in a given month.

Another advantage we have over typical landscaping & lawn-care companies is Buck Landscaping's understanding of flowers, flower beds and professional gardens. Not many landscaping companies have professional gardeners on site ensuring each hardscape will supplement the natural growth and beauty of flowers, gardens and lawns.

All of the photos are work we've done in the past, we hope you will get some ideas and call/text/email us for a FREE ESTIMATE. God Bless You! Daniel E. Buck, Owner, Buck Landscaping
