Selling my Vox AC30C2, which was purchased in 2011. Features 2 channels of operation: Top Boost and Normal. Channels can be used independently, simultaneously, or hot-wired together for added gain. Has lovely reverb and tremolo sections. Comes with a footswitch to toggle each effect on and off.

Amp is fully functional. Just a few knicks on the exterior. Used it for a handful of gigs, otherwise it's been living at my smoke-free studio. Swapped in some new JJ tubes early last year that are still sounding great.

Shoot me an email if you have any questions or want to check it.
