Hello! I've been wanting to work on a new project for quite some time now, and decided to look to Craigslist to see if anyone would like to help me out. I'm a freelance photographer, been so for about 4 years now, and I rely almost completely on natural light - studios are way too restrictive in my opinion. Ok, wow, what an intro...

The project is boudoir photography. You can easily Google what some examples look like, but they typically look over-processed and almost like cheesy adult pictures. The look I'm going for emphasizes a voyeur-esque feel - I want the pictures to imply that you were either alone or with someone special, with a dreamy "day off" vibe. I can keep trying to explain, but I'll attach pictures (not mine) to help convey my idea.

I totally understand that this can be intimidating and somewhat creepy, so if you need a friend present, please feel free; but I ask that they be completely respectful of our time - I've had so many distractions with additional people on shoots and I felt like the third wheel.

I'll provide you with the edited photos - this first shoot is free, but if you'd like to work with me in the future, my regular rates will apply. :) I'll link you to my website, Facebook, Instagram...whatever...to help give you an idea of my current style (which this project will look completely different).

Please be local to Minneapolis or the immediate suburbs, have a nice bright room in the house, and available mid afternoons. Thank you SO MUCH for reading this.
