Selling a healthy adult female leopard gecko! I currently have 14 and am looking to thin my herd a bit.
 -Has been fed calcium-dusted mealworms & dubia roaches, and the occasional superworm.
 -High yellow morph, unsure of exact genetics (for breeders). She does have "bug eyes" which is a rare genetic mutation.
 -\$30 or best offer!

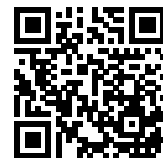

Email me with any questions and I'll try to get back to you asap. Thanks for looking and have a great!
