Spyder paintball gun with 4 settings: semi-auto, 3-burst, 6-burst, and fully automatic. It is electric with a rechargeable battery and charger. Very nice electric fed spyder hopper. Comes with all you see in the picture: mask, gloves, 2 pods, remote hose, and pod holder. Also comes with all tools and oils as well as a duffel bag to carry it all in. It was last used about a month ago and cleaned thoroughly. It started leaking some co2 last time I used it. It's just an O ring somewhere I'm sure. Very easy fix. It's an awesome gun never had any problems but I'm going to college soon and just have no time nor use for it.

Take it all for \$75 obo
