

Rehoming Pearl Cockatiel (Southern Maine)

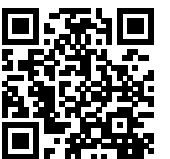

Location **Maine**
<https://www.genclassifieds.com/x-626388-z>

We are looking to rehome our female pearl cockatiel. Her mate died this past November and she is quite lonely. Would like a home with bird experience and another bird to keep her company. She has become more social over the years, but is still a bit nervous. She is not hand tame but likes when you talk to her. She is approximately 5-7 years old. If interested, please email me information about your bird experience and what type of bird you currently have. Thank.
