Cheeto is a flashy dun quarter pony gelding who loves attention. He has been used in the pasture, trail riding and has been around cows a bit. He has also been lightly patterned on the barrels. He is a great mount, only 12 years old, stands 13.3 hands. Flashy color, and a great disposition. He would make an outstanding horse for a smaller adult, or more experienced child. He has done pony rides, but is not a beginner pony. He is very sensitive and responsive. He has lots of willingness to learn more, and puts his heart into everything he does. Would also excel in 4h with a youth that has ridden, and could be an incredible flag or rodeo pony. Great on the ground, joins up beautifully. has packed lightly. He likes to have tasks to work on and is smooth and fun to ride. Used on the ground for education programs and as a guide trail horse leading or following rides.
He enjoys going out and being ridden. Has been ridden both english and western.
