

Abatement Technologies PPM3 Portable Differential Pressure Monitor (Darien OBO)

Location **Illinois**
<https://www.genclassifieds.com/x-626591-z>

Brand new never used , they are selling for \$1,100 on ebay I'm asking \$800 OBO I'm open to trade ideas , 22" 20" 24" rims . Car audio double dins , iPhone 6, note 4, galaxy s5 , newer smart phones , ipad 4-5, I'm into electronics , let me know what you have cash is always king

Portable Unit Measures and Records Negative and Positive Pressure Differential for Construction and Renovation Projects

When performing construction, demolition or renovation work in buildings or facilities, it's important to minimize the impact on building occupants or sensitive products or equipment. Sealing off the work area and keeping it under negative (lower) air pressure compared to adjacent spaces keeps the flow of air inward and reduces the likelihood of particles escaping. The PPM3 Portable Differential Room Pressure Monitor from Abatement Technologies® measures these pressure relationships.

Accurate, State-of-the-Art Technology

The intuitive technology of the PPM3 Portable Differential Pressure Monitor makes it easy-to-use. It has the capacity to record and store a large number of interval pressure checks, alarm history and setting changes in a history log that can be viewed on the screen or easily downloaded in CSV format to an external USB flash drive.

Other advanced features of the PPM3 Portable Differential Pressure Monitor include:

This rugged molded polymer case for the 4000 series provides a view window in the case that remains clear during use to protect components and keep them protected from free fall. Touch screen display with 10-point multi-touch history for scrolling to prevent accidental on-screen wipe. Upgrade to a visual and audible alarm system with audio alarm override. Up to 6 months of operation under battery power. Differential pressure range: (-0.1 to +0.1) Pa (-0.5 to +0.5) inH₂O (-20 Pa to +20 Pa)
