Hello I'm selling my Late 2012 27" iMac 2.9Ghz computer. I got it in early 2013 and replaced it early this year so it's only had about 2 years of light home use and it works perfectly. It's great for watching movies or seeing graphics in a detail scale - included are original box, keyboard and brand new magic mouse.

This is the late 2012 slim model it has about two years of light use and runs perfectly. It is cleared off now and ready for your use whatever it may be, also included is the Microsoft Office Suite.

Details:
 27" Screen
 1 TB drive
 8 Gb RAM
 2.9 GHz i5 Processor
 OS X Yosemite
 Microsoft Office
 Current "Slim" Body iMac Model
 Keyboard and Magic Mouse
