Fully Loaded Horizon Elliptical Like New. I bought it a year ago and have yet to use it seriously. Absolutely nothing wrong with it, my truck just broke down and I'm desperate for the cash to get it fixed. It features power incline, power resistance, multiple user modes, four workout modes (rolling hills, mountain, reverse training and manual), fan, ipod and auxiliary hook up, cup and accessory holder and a heart rate sensor. I'm asking \$500. You can call or text me at five ate six too five six 6 won six
