Our 2013 Lexus Rx450h AWD with 25k mi. has an MSRP of \$56,914 and it is coming up for sale because we are buying a sedan in it's place. It's a perfect 1 Owner car that will present meticulously and comes from our adult home (we are also pet-free and we are non-smokers). These and the Toyota Highlander Hybrids are amazing because of the fuel economy you receive along with the space they provide you. You can literally AVERAGE 31 mpg in this vehicle which is outstanding, to say the least. Our Rx450h will come with 19" Alloys, Xenon HD Headlamps, Nav System with Voice Command, Backup Cam, Sirius Radio, Intuitive Park Assist, Moonroof, Roof Rails, Wood/Leather Wheel, Remote Engine Start from the factory and more.

Every single service was done at the dealer. There hasn't been a single accident or the slightest of fender benders or nudges since we bought new. It's ONLY been garaged and we do not have children so it's never been owned as a family style vehicle. I've never gone through a touch car wash (touchless only) and it's been hand clay bared/hand waxed every 3 mos. like clock work. There isn't a single ding or scratch on the exterior, and I'll be posting some better photos soon. This is as close to showroom brand new as any 25k mi. pre-owned car could be. To say it's been babied would be a understatement.

Priced at \$41k. We have all the paperwork from purchase as well as all the service records, both keys, all the books/manuals from the factory, and even the original factory window sticker (as shown here). If you have questions feel free to call. I'd rather a phone call vs. texting or emailing. I can be reached at 2-0-7-nine-four-four-6-3-eight-six. Thank.
