Full race 700R4 best parts you can run, only items that are not upgraded are the input and output shafts (as factory are forged quality anyway). Built by professional builder, can have a testdrive if desired. All 5 Pinion FRONT & REAR Planetarys, Beast Sun gear shell, red clutches, you name it it's been done. Only about 100 miles on it, as new owner of drag car wants a TH350 instead. Has 3600 stall in it now, but I want to keep that as it is \$975 alone and I want to put it in my car. Shifts hard. Call 30eight-390-122nine.
