"I snaged one of these bad boys up cheap a few little nicks nothing crazy its still beautiful.I have a pile guitars fancy ones with the works to junkers.This cheap little laguna is one of my favorites it sounds so good.The pick ups are quiet and perfect the switch is top notch and knobs are quiet and of good quality.Every time i buy another guitar i feel a little stupid because i always end up playing my laguna any way.Ifyou want a good guitar that works awsome looks great and is built well grab this little rock and roller.I never heard of laguna before but this guitar put laguna on the map for me.BUY THIS GUITAR!!!!!!

Bottom Line Yes, I would recommend this to a friend"
