I have a very old Peavey Ultra Tube amp, it was called that one year before it was known as the Tripple X. 3 channels, 60 watts, clean all the way to sounds like Def Leppard tone, to amazing real tube Distortion. I have way to many amps, fresh tubes and go through by the Late and Amazing Chuck Mathes in Lincoln in July. about 6 hours on it since then, comes with footswitch. 3oh8-390-122nine Timothy NO SPAMMERS, try it before you buy it!!!!!!

Here is a video I found on Youtube that really sums up it's versatility!!!!
