Up for sale is an early '80s Music Man RD50 head. This is a 50 watt 6L6 output tube. There's also a 12AX7 for the overdrive channel. It has a fantastic clean sound, like a warmer version of a blackface Fender amp. Tons of headroom, and nice reverb.

The amp is in perfect working order and is very clean; there's just some minor tarnishing of the hardware. Footswitch included.

I have 2 of these so I finally decided to let one go, I have many cabinets too if needed.
