Selling an early Henry Disston & Sons hand saw in excellent condition.

Apple wood handle with small chip on the upper horn, but no cracks/repairs anywhere.

Straight tooth line with no missing or low teeth, still sharp but could use a tune up.

Medallion Disston & Sons Philada which dates as an early saw.

Clean 28" plate with no major rust/pitting, faint etch but still readable. Has 1840 & 1874 dates.

Really a very nice saw that could be put to work.

Any interest, please send a contact number
Thanks.
