

I need someone saturday 8th 10am for sheetrock and tile repair (concord)

Location **New Hampshire**
<https://www.genclassifieds.com/x-627019-z>

Just about 4 hours of work, but If you now how to tape, sand, etc to make repairs seem seamless, then contact me. I have a small job to do for someone and could use the help.

If you know how to cut tile with nice precision, without a wet saw, and can help me with some other slight odd job things, that would be cool..

Both these things I need from one person. Its literally like 2 tiles, and 3 or 4 patches to repair, which means we will have to buy the sheet rock, insert some two by fours to screw the sheet rock into, and cut out a peice that fits flush with the hole its filling. Youve gotta be capable of making it seamless, because thats what I am getting paid for, and if I dont get paid, well then you know the rest..

Aside that, I will pay you cash as soon as we are done.

Please contact me if you are available for saturday at 10am. Looking for someone who can work hard, take direction, and is capable of working 8 hours.
