We are a Licensed-and-Bonded Senior Care Employment Agency, with over 20-years of experience, that specializes in live-in home care for the elderly. All of our caregivers are bilingual-fluent in English and another language (usually Polish/Russian/Georgian).

We work very specifically to ensure the best quality of process. We first go into detail about our client's particular needs and then sort through our database to choose a caregiver based on the requirements. We will only work with experienced caregivers and we personally interview and check their references to make sure they live up to our standards. If they stand appropriate, we will then tell our clients all about the aide and schedule a personal interview for them, if they wish. This is all at no cost to our clients (we are an employment agency finding work for caregivers). The average rate to pay for a live in caregiver is \$130/day-which includes all services.
