Have four holland lops babies for rehoming. Recently purchased a holland lop from a breeder and found out momma was pregnant. So now I have four beautiful babies to rehome as I cannot keep them. I have two brown (chestnut) one female one male, one cream and white female, and one black and white female. They will be ready in two weeks to go to their forever homes. I will be asking questions and their will be a rehoming fee to insure they go to not just a good home but a forever home No homes to kids under four years of age. I am including a contract (as I don't want my babies to end up in a shelter if you get bored of them and no longer want them) that if you no longer can keep the bunny. It needs to be returned to me so that I either keep the bunny or find it a suitable and proper forever home. I work with a rescue so that's the last thing I want for my babies, to be in a shelter.
