-- Melanie --- Office Manager

or

-- Ken----- Owner/Operator We are looking for a sales expert who has extensive experience in manufacturing. This is a must. If you have a background selling insurance, mortgages, customer service or working retail, please do not apply to this position--you will not receive any consideration and will not receive a response back. We are a unique consulting company that is seeking someone to work up to 10-hour days, five days a week. This is definitely not the kind of sales position that can be done in your spare time. We are looking for someone who has a hunter mentality and has the ability to represent our clients businesses in a sales capacity. You will be making an average of 12-15 calls per hour and using a CRM system. You must have an extensive background in manufacturing, whether it be in wood, chemical, electrical, wiring, steel, rubber or plastic. You will be contacting engineers, plant managers and purchasing managers and must have the ability to generate RFQs and convert these into purchase orders. This is not a mere lead generation job or appointment setting position. This is an inside sales position and you will be working from your own home office. This position pays a base salary of \$50,000 to \$70,000 annually, on an hourly basis (based on experience), by way of the UpWork platform. In addition, a commission plan will be offered based on hitting certain levels of performance. Please respond with your resume and a cover letter explaining why you are the ideal candidate for this.
