 Selling a 2003 Pontiac Aztek AWD W/127,*** miles Starts & drives great engine & transmission are both solid doesn't leak or burn oil. Car has been maintained mechanically as well as cosmetically has been adult owned its whole life and garaged exactly why there's no rust, oil changes every 3000 miles has been babied and used but never has it been abused never beaten on by kids pet free and smoke free SUV.

 Shifts through the gears like nothing handles well in city as well as interstate getting great gas mileage for a SUV this size averaging about 28mpg highway city 20/22mpg its a great SUV for winter or offloading camping trips will never leave you stranded or leave you on the side of the road it gets through just about anything especially these nasty Fargo weather winter days we tend to have not to mention it also has Autostart and the heat works like a charm.

 The exterior of the car is black and has been well cared for exactly why there's no rust or scrapes maybe a few scratches here and there but that's all, has the typical body armor that the AZTEKS came with which matches the color of the SUV it cleans up and shines up very very well, also has tinted windows to keep the sun out and the cold air in (legal tint) has a towing hitch comes in handy, as well as a roof rack so its a great camping SUV , new tires all around about 200 miles on all 4 fog lights work and all.
 Rate exterior 8/10.

 The interior is cloth seats light grey with shampooed seats that make smell good interior looks and smells like new!!! Very well maintained everything inside works as it should windows locks mirrors radio sunroof well lit dashes (doesn't it gauge you have) lots of leg room and storage space for all items as well as headroom as the motor compartment is spacious that you can make it also slept with a TENT you could look up in the back of the SUV ,the seats comfortable the trunk has plenty of space for anything the seats all fold down . No stains clean pet free . No rips.

 Pros;127,**** miles, autostart, new tires,power locks/windows, tinted windows, towing hitch, no rust,no dents, radio CD player, new battery, fog lights, 3.4engine,gas saver, AWD , spacious lot of leg room, cup holders, sunroof, cloth seats, shampooed seats , pet free,new speakers and much much more!!!!

 Con's; Needs an AC recharge just haven't done it needs back rotors soon not just yet but soon I'd say another 300miles doesn't speak or nothing but when new tires were put on they informed me, other than
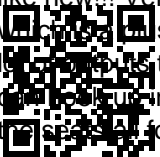

that everything else works and is perfect.

 Overall i say its in very great condition well maintained and cared for not to many AZTEKS around any more especially this nice I'm asking $3800 cash is king worst I can say is no but please no tire kickers or low ballers I looked around and I see these cars never for sale because there reliable but here she is, don't waste my time i won't waste yours Clean title in hand.
