

Adult Ball Python and Bearded Dragons (Tulsa, OK)

Location **Oklahoma**
<https://www.genclassifieds.com/x-627539-z>

Male lesser around 1600 grams (pic #1). Proven breeder and very calm disposition. Has never tried to bite anyone. Would make a great breeder for someone or just an awesome pet. He eats medium sized rats (live or frozen/thawed). \$150 rehoming fee.

I also have a young adult female bearded dragon to rehome. She is right around a year old and is a citrusXsandfire morph. Eats her bugs and veggies very well. Has a huge appetite! And is very friendly too. Rehoming fee of \$150 for her (pics #2, #3, #4).

I would take \$275 for the ball python and bearded dragon together.

I also have lots of various baby bearded dragons available starting at \$40 and up.
