

NEEDED Landscaping (small project) (Whitefish Bay)

Location **Wisconsin** https://www.genclassifieds.com/x-627664-z

Need some basic residential landscaping after a new garage and driveway construction project. Want to restore the yard and fill-in where the concrete forms were placed.

** NEEDS TO BE DONE BY AUGUST 21ST. **

Project details -- it's a small area, about 20' x 40' in a backyard behind a patio:

• Remove existing lawn -- will need a sod cutter or dug-up by hand

• Remove existing small shrubs -- about 6-8 total

• Re-grade lawn -- will need topsoil fill

• Plastic edging and stone bed around one tree

• Install new sod

• Install weed barrier fabric and stone in rear/side of garage

Your responsibilities:

• Provide all labor, tools and materials (except for stone, I have that)

• Hauling away all debris and clean-up after you're done

• Getting it done no later than August 21st

• Be a capable, considerate person to work with
