Any problems with laptops or desktops, hardware or software, I can repair or replace or reinstall. No diagnostic fee and no need to deal with downtown/short pump traffic! These prices outline my normal repairs but are not limited to the work I am available to do. I have rebuilt a few hundred laptops for resale, have my BS in Forensics and a SUNY degree from Syracuse, and was repairing laptops for 6 years while attending Syracuse/VCU through 2011. I have been working on others' computers since.....so much for my college degrees! ha, ha!

So if you have a power jack that looks like either pictured in the sixth photo-no fear, I fix ones in worse condition than them.

Thanks
I also work on and repair the iPhone, iPad, Galaxys, LG's G2, ect. Please send email indictating what you have and what your issue is. Devices like these I will give individual estimates for. Like iPad 2 digitizer would be \$80 total.

Multiple computers or issues receive a 10-15% discount and jobs not listed please inquire for pricing.
