  Any problems with laptops or desktops, I can repair or replace parts. Software or virus issues I can eliminate the problem or threat. No diagnostic fee and no need to deal with downtown/short pump traffic! These prices outline my normal repairs but are not limited to the work I am available to do. I have rebuilt a few hundred laptops for resale, have my BS in Forensics and a SUNY degree from Syracuse, and was repairing laptops for 6 years while attending Syracuse/VCU through 2011.
  So if you have a power jack that looks like either pictured in the sixth photo-no fear, I fix ones in worse condition than those.
 I also work on and repair the IPhones, iPads, Galaxys, LG's G2, ect. Please send email indictating what you have and what your issue is. Devices like these I will give individual estimates for. Like iPad 2 digitizer would be $80 total. Thanks

  Multiple computers or issues receive a 10-15% discount and jobs not listed please inquire for pricing.
