My family and I are looking for a fixer upper home that is good enough to live in. I own a remodeling company now so to bargin with the price of the home I can help you get your dream kitchen or bath at cost! We went through a tough time for a year because I couldn't work so our credit isn't great. It on its way up though so I'm looking to do a land contract with someone. We need 3 bedrooms and either a finished basement or a basement that we can finish ourselves. Also must have a yard. Thank!!
