Hi there! We are a highly unique couple seeking out a personal assistant and household helper...

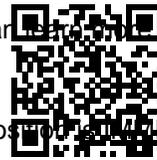

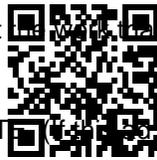

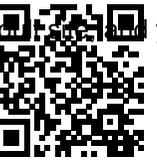

The first thing you should know is that we work in the adult industry, and if you are not okay with that---this is not the job for you. You would not be expected to participate, as this is not what this job posting is concerning, but do need to be comfortable with the nature of our work...

We are two very creative, educated and professional, highly motivated, free-spirited, yet hard-working individuals who are very relaxed, fun-loving, a little bit OCD, and very quirky! We both enjoy yoga and fitness, nature, fire, music, art, filming, dancing, being with people, feeling energy, and just "being"... We are a little bit different every day! More often than not, we are just two children playing in the sandbox of life!

Our sandbox has recently led us into the adult industry, where I am an amateur porn artist, and my partner manages me...! Our work has skyrocketed, and so we are looking for an assistant and household helper! This can even possibly be a live-in position, and there is much opportunity for travel!

All of the work we need help with is very light, but having someone to help would lift a great load from us! The work can vary from day to day---light housework (such as dishes, general pick-up, laundry, etc.), running errands (post office runs, groceries, bill paying), and possibly even a bit of help with our online work, if you are open to it. Depending upon your organization and planning skills, we could even use a bit of help with planning future events and such, but this aspect is open for exploration, upon a case-by-case basis---it could even be a second job opening, all depending on the person! :)
