Four 1986-1997 Ford Aerostar 14" wheels, factory alloy. With lug nuts (no caps -- they are being sold separately). All four for one price. 5 lug on 4.5 inch bolt circle (or 114.3mm) pattern.

These wheels will fit on all years of Aerostar. I have run these for many years and they run true. The frosted finish is wearing through in some areas and shinier spots are showing through, but they still look decent. The black paint is all in good shape, and they're a bit cleaner than you'd expect for wheels of this vintage. Snow tire wheels? "Winter is coming".

I live in Duvall, work in Seattle's Central District; I can meet between those.
