

Wheels, 1991 (94 USD)

Location **Washington**
<https://www.genclassifieds.com/x-628476-z>

Three 1991-1994 Ford Explorer wheels, factory alloy, with Les Schwab Toyo Open Country tires, P235/75R15 105S tires. Wheels have some corrosion curb rash, and one has a bent lip. Tires are mostly done, but two do hold air. 5 lug on 4.5 inch bolt circle (or 114.3mm) pattern. All three for one price.

These wheels (not the tires) will fit on Aerostar to upgrade from 14" to 15". I bought these to do that, but found better looking ones to use instead, so these are leftovers.

I live in Duvall, work in Seattle's Central District; I can meet between those.
