Very cute petite antique secretary desk with tons of character. Not sure of the type of wood, possibly pine. It shows its age with a few cracks and some wear to the finish, but that just adds to its charm. Everything is functional, including drawer, pull down desktop, and inner cubby drawers, and the piece is pretty sturdy as well.

27" wide, 14.5" deep, 41.5" to top of desk, 53.5" to top of mirror.
