this is really as simple as it gets. on August 11th, the US Mint is putting a certain coin set out for sale. the set is limited to just two per household. this is easy money for you as I will buy those coins from you for \$50 more than you paid for them!! here is how it works:

on 8/11/15, you will try to buy the 2 sets online from the US Mint. cost will be \$57.95/ea plus \$4.95 shipping for a total investment of \$120.85. YOU WILL NEED TO BUY THESE ON YOUR OWN CREDIT CARD!! This is the only catch to this!!

once you receive the coins, I will meet you and pay you \$170.85 for your two coins. That is an instant \$50 PROFIT for doing nothing more than ordering coins for me. I will do this for as many people that are willing to do so.

You can only order two coins per Credit Card/Address. I will go into more detail for those interested. Please email me for details. This is REAL & EASY!!
