I'm just needing some help with some construction stuff, I've tried hiring people but they never show up, and I just need some help getting some of these things done, and I can even pay you a bit if you need. But just thought I would reach out here as well and see if anyone can help.

I need to build two bathrooms, frame some walls, and finish off a couple areas. if you do a good job with these, and would like I would be able to hire you part time for some other stuff also, maybe once a week or so, also looking for someone to shovel driveways in winter.

Thanks,
