My name is Dave & I recently relocated to Cheyenne to attend LCCC in the fall. I've been looking for apartments but haven't had any luck for one reason or another. Right now I'm camping until I can find something more permanent. I'm 35 years old, neat, & respectful & I need the same in a roommate. I'm looking for a situation that will be conducive to my studies (i.e.: no parties, drama, etc.). Even something short-term would work. Just a place to shower & sleep while I look for another place to stay would be good. Any help is appreciated, even if it's just advice. Thanks for reading & have a good!
