This is a 1996 Toyota Tacoma extended cab truck with 140000miles.I have a clean a clear AZ title. This truck was stolen ,striped and dump in Mesa. Got it back for the impound the next night without wheels and various parts. Selling it because I dont have the time to try and piece it all back together. Could be a great project for someone or a parts tuck for your current Toyota. Truck does not run missing various parts and is sold in as is condition. Still has a good Motor,Transmission,chassis,tire and rims worth at least \$1800. Open to offers, will not waste my time with low ball offers lam NOT IN A RUSH TO SELL Call or text.
