Web MarketingDesign Intern Needed ASAP (Downtown)

Location   **Arizona**
https://www.genclassifieds.com/x-628689-z

Update: You gotta be local. Please don't email me your resume if you can't work on site in Phoenix AZ.

I am a really (yes, really) busy developer and my workload has sky rocketed in the last few months. I am bringing on some interns to help with my work and learn in the process. I already have 2 interns working along side me, need at least 2 more to stay sane. This is a paid position.

You don't need to be a designer or developer, as long as you are a quick learner and have some experience working with websites.

Ideal Position Description: Seeking Intern front-end web developer/assembler to work closely with creative design and back-end development team to create HTML5/CSS3-based web content for desktop, iOS and other mobile platforms. Should have a basic understanding of back-end programming architecture and technologies used to develop web projects and mobile applications.

Preferred Minimum Requirements
? Experience working with HTML & CSS
? Ability to update, maintain and add content on Wordpress Websites
? Ability and willingness to work On Site near Downtown Phoenix.
? Availability for at least 10 hours per week. Schedule can be flexible.
? Demonstrate ability to learn and follow directions, and communicate progress.

Optional Requirements
? Intermediate understanding of HTML5, CSS3, jQuery and responsive design principles.
? Basic knowledge in JavaScript/JQuery/Ajax.
? Basic knowledge of working with Magento Platform.
? Experience working with design tools including Photoshop, Illustrator.
? Basic understanding of Responsive Web-design, media queries and mobile-first development.
? Elementary understanding of Server side scripting languages like PHP.

Pay: $10-20 per hour DOE

Email Resume to: sahil{dot}akos{at}gmail{dot}com
Try to include "Web Design Intern Application" in your subject line.
In email body include your experience working in web design, development, SEO, Content Marketing.
