I am re-homing my 2 year old rabbit. She is spayed and she is also fully litter trained. She makes a wonderful pet because she is so sweet and she loves to be petted. She is the best rabbit anyone could ever own! Her cage is half of a room that is divided by a puppy ex-pen, so that she has plenty of room to herself. I hate that I have to re-home her, but I don't have the time anymore to care for her and give her what she needs...which is attention. I'm looking to give her to someone who is a responsible adult and who has a lot of experience owning rabbits. Someone who absolutely loves keeping rabbits and who knows how to properly keep them. *Supplies she will come with: litter box, litter, hay, food, hay rack, food dish, and toys. *Re-homing fee is .*
