I am looking for female (18-25 look) models. I am attaching samples of my modeling work To see if you fit what I'm looking for. Please have a bikini/ beach body and clear skin. Nationality is not important or experience, we are taking photos not asking you to act. Some shoots will be heavily photoshopped others will be natural styles, I am experimenting with new techniques and equipment and I prefer to try it on my own rather than when a client is paying for my time. Since these are for my personal portfolio and for testing purposes I can't pay a ton but 25 an hour is fair. Shoots will last from 2 to 4 hours and you'll be paid in cash the day of the shoot. Some will be on location and some in studio. Please include a recent face and body shot with your submission as well as your availability and whether or not you're comfortable doing your own make up and hair. If you do not i will not respond to the flood of question I usually get when I post castings. Not trying to be rude but if I'm not going to hire you I see no point in playing 20 questions before I even know if I want to cast you. Again pay is 25 an hour as well as copies of all final edited.
