Got a couple nice vape pens for trade. The aspire has the variable airflow tank. The Itaste needs a new wick/coil, they run about 15 bucks. Otherwise, both are in excellent condition with the aspire being about 6 months old but only used for about a month. Open to all sorts of trades but here's some ideas. Electronics, tools, hunting/fishing, computer, Ferrari, Porsche, gold, land or whatever other offer ya got! I could add some \$\$ for something.
