Charlotte needs an understanding owner. She came to us as a stray, most likely as someones `feeder cat`, because she is still getting used to human attention...which she LOVES! Though she may shy away from your hand, she will headbutt you for love! She arches her back up when you scratch the back of her neck, and is even getting comfortable with full body petting. She starts making biscuits and kneading, and she also drools because she loves your attention so much she forgets to swallow! She may make a good `barn cat`, but she would also like some attention. She is a very sweet girl, especially after you bond, maybe over some treats? Come meet this lovebug. We are unsure of how she does with other cats, she would probably be afraid of dogs, and she would do best in a home with no young children. She is getting better every single!
