Beautifully remodeled 3 bedroom, 2 bath home available Sept. 1 in Wash Park! It is at the front of a duplex with its own large, wrap-around deck and 3-tiered garden that faces the street. The home sits on top of a hill and faces SW- it has ample light and views of the mountain peaks. It is 3 levels with the lower level offering an apartment-style space: a separate bedroom, living room and full bath. The home contains high-end upgrades and appliances with plenty of space and storage. It is part of a quiet neighborhood and is perfect for a professional couple, roommate professionals, or a small family.

This home is located in a quiet neighborhood with fantastic, respectful neighbors, so we would like to find renters that are not looking for a party house; rather, they will take care of this home as if it were their own. We are open to one year and two year lease options.
