I have a small tour bus for sale that has low miles and runs great!
243K miles on the 24 valve Cummins engine. It also as a trusty automatic Allison transmission.
These buses are designed to go over 500K miles in commercial use.
HUGE Luggage storage! No air brakes. easy to operate and to get around town.
Everything works as it should.
Don't let this great rig pass you up.
Thanks for checking it out!
email if interested!

It also has an after market fuel pump which was \$2200.00
