

1997 BMW 328i M Sport Convertible E36 (1300 USD)

Location **Delaware**
<https://www.genclassifieds.com/x-629373-z>

I apologize in advance that I only have a few pics at the moment. Friend is borrowing my camera, so more will be up soon. I will not answer calls, text only. I work nights and sleep during the day so please be considerate. Price is definitely OBO. I'm a very motivated seller, but will ignore lowballs.

Bought this 1997 BMW just under 2 months ago with the intent to one day track it in either drift or autocross. I've put a tiny bit of work into it, but I just don't have the space or tool resources to do what I want so I'm letting it go. Clean Minnesota title in hand. I will be taking the plates back.

Known issues:

- *Motors for the convertible top don't work, and the plastic window is missing
- *Throwing an O2 code(never got the car up on a lift to try cleaning the sensors, but a brand new sensor will be included)
- *A good portion of the car is gutted(I still have the front and rear seats along with front door cards. And YES, the seats are M3 VADERS!!)
- *E brake doesn't work(believe the cable needs to be tightened)
- *Passenger rear wheel is not currently an M contour due to the previous owner having a tire blowout(that 4th wheel is included still)
- *Car has an electrical issue. It needs to be push started. Would advise you bring a trailer/dolley, but it's up to you.
- *Driver amber corner and taillight running lights don't work. Hazards, turn signals, and the brake itself

work, just not the running light for some reason. Fuse or wiring?
