

# BEWARE of valley breeder

Location **Alaska**  
<https://www.genclassifieds.com/x-629406-z>

I bought my puppy (party yorkie) from these breeders- and every time I went out to visit- I had to stay in my car- which was a little suspicious. I noticed that my puppy stank like feces and urine overwhelmingly to the point it was hard to hold it. I did not say anything. When the puppy was released to me- at 7 weeks old- I brought her home and immediately had to treat for ear mites and a skin infection. I bought the papers for this puppy when I paid for the puppy- which was rite after birth.

The dog is now 8 months old and I just got the papers after much calling and and even threats of court!!- these breeders never had the papers. Nor did they have the papers for the dam or sire. This was one of the worst cases of lying & manipulation I've had to to deal with. All beware of KK BELLES. They don't care for the puppies and are lying procrastinaters. Don't waste your time with these.
