I have lots of these cages. The smallest set available has 12 cages but I can cut them as long as you need. let me know ..///// willing to sell or trade. I would trade for lots of different things like hunting or fishing stuff or maybe tools or fence building stuff: T posts, hog fence, hog panels, barbed wire, cattle panels, just about anything for farming. I like cash and the more you buy, the better deal I will give you. give me a call

I have 3 different styles. some are 3 cages high, some are 4 high. lots to choose from. if u want to get them cheaper and are willing to take them out we can make an even better deal! just give me a call
