Hi. Have some hot tunes? Have some skill? Are you advanced enough to play blues, handle some rock and jazz chords and solo? Then I need you for my project: I'm working up to playing shows with my keyboards and P.A. I sing, play blues, rock and jazz keyboard and play drums. I make recordings of my songs with my home studio, all parts - vocals, keyboard, drums done by me. I have a list of about 90 covers I can learn - I know about 30 of them now. I'd like to jam with someone and see what we come up with, and just for the fun of it. Eventually, we could team up to play shows. I may be playing a solo show at the bar down the street in a few weeks. College students welcome to apply; a good intelligent attitude is indispensable to getting music done - though any one welcome.. A good truck would help. If interested, call or text or email..
