-
9. Nail in paver edging
 10. Sweep polymeric Sand into joints of patio stones
 11. Compact Patio Stones level
 12. Sweep more polymeric sand into patio stone joints
 13. Then slow off sand off patio stones (He does have a Shop Vac)
 14. Back Fill over pager edging or whatever needs to be back filled.

He will then water the patio for three hours.

He already has approval from association.

Already had Miss Digg out all is clear. Just watch for cable which you will see.

No permit is needed from Taylor for this project already been checked.

He is right off 1-94 1 Minute so all freeway it is by the airport. Telegraph and Goddard. The name of the place is <http://www.georgetownplacecoop.com/> and on Rosewood Avenue.

If you can do it He needs a week notice so his friend can drop everything off.

Can Be As Early As This Weekend.

So if you want pick a date has to be a Tuesday, Wednesday, or Thursday as that is when he can use the plate.
