Hi, I am currently free anytime and looking to work in the next couple of months; however, I would maybe be open to working now. I have lots of experience working with children. I was a daycare aide for a large in home daycare for over a year working 4 to 5 days a week; only quit because I moved county's now I'm back 8 months later. I also am a mother to a 3 year old boy and am pregnant with another boy that I'm expecting in early October. I also have early childhood education units from San Jose City college. I love children and would love to either work as a daycare aide again or as a babysitter for a family. You can email me or call me if you think I could possibly be a fit for your family or daycare. Thank you for your.
