Let's do our part to help all cats live better lives, never reproducing again. Feeding cats without spay/neutering them, no matter how well-meaning the people who feed them are, only helps make the cat population grow even faster. There is a severe cat problem in our communities; many folks are aware of this problem yet have no clue what to do, where to go, or who to contact for help. Here is the information everyone needs to know who is interested in making a difference in the feral cat population.
