My husband and I are getting married in a few weeks and I am helping our friend plan his bachelor party. I have elected myself to pick 2-4 dancers/strippers for the party. There will be NO alcohol at the party. You will never be fully nude. (No I'm not some crazy jealous fiancé, this party was my idea) I just want to keep things classy and comfortable for you girls. \$75 per hour for 2-4 hours per girl plus tips. So potentially you're looking at making at least \$200 possibly \$400 for the night each.

- You must meet the following qualifications:
- Know how to play/deal poker
  - Do not smoke
  - No drug use
  - No drama
  - Club experience of at least 2 years
  - A Body Mass Index under 25
  - Clean and well groomed
  - Show up sober
- You must work the entire shift to get paid

There will be no sex with the guests. You are not expected to do anything sexual with any other dancers.

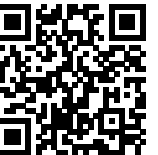

You are welcome to bring security with you but firearms must stay in your vehicle. There won't be any

inside the hotel room. You will be expected to show up with your hair and makeup done and then change in the bathroom. If you have no experience doing private parties, this gig probably isn't for you so don't apply. I want this bachelor party to be something my husband remembers for years to come.

There will be no cameras/video cameras inside the room.
